PRESS RELEASE

New partnership

DataArt partners with EXCO to develop customized solutions for the medical device industry

Munich, May 14, 2019 – DataArt, the global technology consultancy that designs, develops and supports unique software solutions today announced a partnership with EXCO, a leading specialist technology provider to the medical devices industry.

The partnership will combine the advantages of the global reach and technological and industry expertise of DataArt, and EXCO's extensive expertise in compliance and documentation certification for the medical devices industry. The partnership will enable the provision of enhanced end-to-end services for the sector.

Andreas Horchler, Head of Sales, EXCO, said:

"We are delighted to have formed this partnership with DataArt. DataArt's global reach, highly respected deep industry expertise, and breadth of capabilities across 2,600 technology professionals worldwide, combined with EXCO's compliance, documentation and certification acumen in the medical device industry will enable us to jointly offer world-class, customized solutions."

Ivan Pantykin, Head of European Healthcare & Life Sciences Practice, DataArt said:

"Owing to the continuing fast-pace in the medical device sector, it is vital that we remain nimble in responding to the changing needs of our clients and the industry. EXCO, as a highly-specialized provider, and DataArt with its wide-ranging expertise and portfolio of services, can together provide an unrivalled end-to-end service.

By joining forces, we can stay ahead of the latest innovations in the healthcare space and provide profitability, and new value to our customers."

The partnership will act as a single source to support clients in strategy development, solution design, software implementation, quality assurance, certification & regulatory requirements.
